Objektbeschrijving:

Situated in the sought-after location of Gènova, this exceptional villa combines contemporary architecture, traditional Mallorcan elements and sustainable living comfort in perfect harmony.

Completed in 2019 in collaboration with the renowned architectural studio Cel Ras, the property impresses with its innovative timber construction, handcrafted natural stone walls and thoughtfully designed layout. Two interconnected structures create a unique sense of space across 219 m^2 of living area, offering abundant natural light, spaciousness and privacy.

The elegant living area with fireplace and the open-plan designer kitchen flow seamlessly onto the generous terraces. A saltwater pool, a covered outdoor dining area with an adjoining barbecue space, and a beautifully landscaped rooftop terrace with breathtaking views of the sea and the hills of Gènova invite you to embrace the Mediterranean lifestyle to the fullest.

4 bedrooms and 5 bathrooms provide ample space for family and guests. The versatile lower ground floor, featuring a media room, office and additional rooms, offers a variety of possibilities.

Special attention has been given to sustainability and energy efficiency. Timber construction, high-quality insulation, photovoltaic panels and a heat pump ensure a pleasant indoor climate throughout the year.

An architectural gem that beautifully combines contemporary design, natural materials and the essence of Mediterranean living.
