Santanyi

Objekt-Nr. 122163

Objektbeschreibung:

A plot of land for sale in the immediate vicinity of Santanyi. It has an area of 18,121 sqm and an approved building project for the construction of a finca on one level, the center of which is formed by a spacious and open living and dining area as well as the kitchen. In the two wings to the side and slightly in front there are a total of 4 bedrooms and 4 bathrooms (all en suite).

The constructed area on the first floor is 271.5 sqm. In addition, there is a terrace/ pergola of almost 56 sqm and a pool (10m x 3.5m). Furthermore, the central part of the house has a basement, where approx. 96 sqm of usable space (126 sqm constructed area) will be available as a technical, storage and utility room or as a bodega or similar.

As the building regulations have been modified or restrictions have been reduced since the approval of this building project, extensions are possible - e.g. an extension of the house itself, the construction of an outbuilding (garage, pool house, BBQ) and also additional terrace areas. These additions should be applied for and added separately after completion of the approved initial project.

The center of Santanyi can be reached in a few minutes by car or bicycle and the airport is only about 30 minutes away.

The purchase price includes the plot, the building permit and the project costs including the implementation planning, which will be submitted in June 2025, so that construction can easily start in autumn of 2025.
